DISCLAIMER

This report provides a concise summary of our findings, aligned with the best practices in the industry as of the report's date, specifically addressing cybersecurity weaknesses and issues within the structure and algorithms of smart contracts, elaborated in detail within this document. For a comprehensive understanding of our analysis, it's essential to review the entire report. Although we have exerted considerable effort in our analysis and the preparation of this report, it's crucial to acknowledge that this document should not serve as a sole reliance point, nor can it be used as a basis for any claims against us, regarding its content or the methodology of its creation. We strongly advise conducting independent research prior to making any decisions. Further information on this is available in the disclaimer section below, which we recommend reading thoroughly.

DISCLAIMER: Engaging with this report, or any portion thereof, signifies your acceptance of this disclaimer's terms. Should you disagree with these terms, please discontinue reading the report immediately and proceed to erase and discard any copies you have downloaded or printed. This report is strictly for informational use and is not intended for reliance or as investment advice. No individual is entitled to depend on the report or its contents, and Tenere, along with its affiliates (including but not limited to holding companies, shareholders, subsidiaries, employees, directors, officers, and other representatives), assumes no responsibility or duty of care towards any party. Tenere does not guarantee or assert the accuracy or completeness of this report. Provided "as is," this report comes without any guarantees, warranties, or other conditions, except those outlined in this disclaimer. Tenere explicitly dismisses all representations, warranties, conditions, and other terms that might otherwise apply to this report, except as stated in this disclaimer. To the extent permitted by law, Tenere excludes all liability and responsibility, and no individual shall hold Tenere accountable for any form of loss or damage that may arise from or relate to this report, its usage, or the inability to use it, including reliance on its contents. The security analysis is solely based on smart contracts and does not encompass the review of applications, operations, or product code for security purposes.

BACKGROUND

KASATKIN X TENERE WAS COMMISSIONED TO PERFORM AN AUDIT OF SMART CONTRACTS:

https://etherscan.io/token/0×28d6CEFDC7a57cB3E2958f61c95B20C76103Fd79#code

THE PURPOSE OF THE AUDIT WAS TO ACHIEVE THE FOLLOWING:

◆ Ensure that the smart contract functions as intended.

◆ Identify potential security issues with the smart contract.

The information in this report should be used to understand the risk exposure of the smart contract, and as a guide to improve the security posture of the smart contract by remediating the issues that were identified.
